Summary: It's 1963, a time in the United States when life was
simple, straightforward, and the lines between the sexes
and sex roles were crisply drawn and severely
delineated. Ennis Del Mar and Jack Twist find themselves
thrown together when they are hired to tend sheep in the
remote area of Brokeback Mountain, Wyoming. Because of
the job, the two are forced to spend many hours together
alone in the wild. Ennis and Jack are inexorably drawn
to each other through their proximity, loneliness and
through a shared lack of tenderness and emotion in their
lives and are emotionally, physically, and psychically
bonded to each other almost from the start.
